Thought Patterns

Thoughts come to mind.

Example: I passed the PMP® Exam!

Thoughts leads to **feelings**, which can trigger new **thoughts**.

Example: I'm happy about passing/upset about not passing.

Feelings trigger **action**, which can trigger new **thoughts** and worldview.

Example: I'm so happy I will jump for joy!

Repeated action creates **behavior**, which molds personality over time. It also feeds back into triggering new **thoughts**.

Example: This person is very positive all the time.
