RefineM Newsletter - September 2013

**Early bird discount for Agile training ends on September 18th. [Register Now!](#)**

**Dear (Contact First Name),**

In today's world of increasing uncertainty, managing risks has become absolutely essential for delivering projects successfully. For those of you who are involved with IT projects may find the first article very useful and timely. The another aspect of today's projects is increasing awareness and adoption of Agile methodologies. Other than software projects, Agile can be successfully used for process improvement projects. Read the second article to know why.

*[Don't forget to register for the 1-day Agile training on 9/25. Avail the 15% early registration discount that ends on 9/18. Ask for group discounts.](#)*

**How to Understand and Overcome IT Project Risks?**

Because technology constantly evolves, companies must keep up in order to remain competitive, so the risks are often necessary to face. When initiating, planning, executing, and monitoring IT projects, two questions must be considered: first, how and why do IT projects fail? Second, what can your company do to prevent this failure? [Read More](#)

**Is Agile a good fit for process improvement projects?**

Even though Agile originated from software development, it can be used for non-software projects too. Most Agile supporters will say that Agile can be used to deliver any type of project, but is that actually the case? [Read More](#)
